- Komatsu PC18MR-2 Mini excavator
- Spotlight on Dingo Range

Komatsu SK-714 Skidsteer Loader

Our ever-popular Komatsu skidsteer has found numerous fans within our client base of contractors. The perfect combination of weight and power sees this machine out regularly in the local (and not so local) community. Utilising the latest pilot controls, anyone can operate like a master within a few minutes (ok, maybe not—but it's sooo nice to use).

- 51 horsepower
- 2.14m dump height
- 10.5km/h maximum speed

WEEKLY RATES

Hamm HD12 VV Tandem Roller

We welcome this new model to our range of compaction equipment. From the class-leading manufacturer, Hamm, this tandem roller features the latest technology, including fully hydraulic drive, automatic/manual vibration control and a fully pressurised water system. Initial feedback has been that this is a great unit, more than capable of tackling most compaction needs

- Low sound level
- 2540kg operating weight
- Hydrostatic articulated steering

Komatsu PC18 MR-2

Our ever-reliable Komatsu mini excavator continues to punch well above its weight, with glowing references from countless satisfied customers. With 15 horsepower and a massive 35 lpm of auxiliary pump flow, this little machine has hidden strengths

- Max digging reach of 3.93m
- Max digging depth of 2.16m
- Expandable undercarriage

Thomas 85 Skidsteer Loader

Need a loader that can fit through a door? Look no further than our Thomas 85. At just 91cm wide, this machine can squeeze into the narrowest of places but still has a safe working load of nearly 400kgs.

- 1353kg operating weight
- 998kg breakout force
- Max dump height 1.75m

Focus on Stand-on Mini Diggers

Everyone knows what a "Dingo" is, but what a lot of people don't realise is the amount of attachments that

are available for them. Perfect for landscaping and light earthmoving with a 4-in-1 bucket, you can also add our **Trencher** for easy trench excavation, try the **Rotary Hoe** to turn over and reinvigorate tired soil. Bore holes up to 600mm wide with our **Auger** and then clean up the mess afterwards with our

hydraulic **Broom** attachment. Need to smash up a slab of concrete? No problem with our **Rock Breaker** attachment. Got a task for a mini bulldozer? Simply add our **blade** attachment and doze away to your hearts content.

As you can see, these little

machines can tackle any job thrown at them, simply choose the machine that you want (either our Petrol or Diesel Dingos, our heavier but more powerful Kanga or our rubber-

tracked Thomas, perfect for when the going gets a bit more extreme), add as many attachments as you need, then we'll

load them onto the included plant trailer and you'll be into it before you know it.

Available on daily or weekly hire, call us now for our latest competitive rates. Book early to avoid disappointment
